THE SAFER SOLUTION

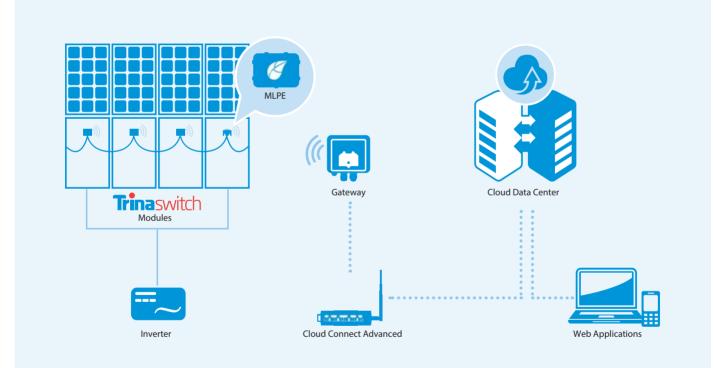

Trinaswitch modules incorporate innovative power electronics from Tigo Energy to achieve module-level diagnostics, and uses modulelevel rapid shutdown technology to reduce fire and safety hazards.

SYSTEM ARCHITECTURE

Trinaswitch system components work together with any inverter. Trinaswitch modules communicate wirelessly through the Gateway, allowing users to monitor system performance in real time. The Cloud Connect Advanced works as a data-logger so you can track the performance of the system across time.

CLOUD CONNECT ADVANCED

The Cloud Connect Advanced controls processes in real time and sends data to a remote sever for monitoring.
