

Limited Warranty Supplement 25 year product warranty for TSM-***NEG18R.20

To Whom it may concern,

This letter confirms that the TSM-***NEG18R.20 Trina Solar module is covered under the Global Limited Warranty, Section 1(h)(ii). Trina Solar warrants that for a period of twenty-five (25) years from the Warranty Start Date (as defined in Section 4 of the Global Limited Warranty), the module will be free from defects in materials, workmanship, or manufacture that materially impede its power generation function, provided that such defects have been reasonably proven to be the direct and sole cause of the power underperformance.

The Limited Product Warranty covers glass breakage, provided there is no external cause for the breakage (i.e., only breakage caused by the glass itself or the module is covered).

Any deterioration in the appearance of the products (including, but not limited to, scratches, stains, mechanical wear, rust, mold, deformation, or discoloration) or any other changes to the products that occur after delivery (Incoterms 2020) to the buyer do not constitute a defect under the Limited Product Warranty.

This Limited Warranty Supplement applies only to TSM-***NEG18R.20 products delivered after August 1, 2024 (Incoterms 2020) and installed within Australia or New Zealand.

For customer protection, any operation such as packing/unpacking, loading/unloading, transportation, storage, installation, use, operation, or maintenance must comply with Trina Solar's latest user manual and other official documents. Any other warranty terms not mentioned in this supplement are subject to the latest version of the Global Limited Warranty, available at [Trina Solar Resources](#).
